

SPECIFICATIONS: BIRDS & BEES MEADOWMAT®

- **STANDARD SIZE** 0.5m² Slabs
500mm wide (19.6")
1000mm long (39.3")
- **SOIL THICKNESS** 20mm (0.78")
- **WEIGHT PER M²** 20kg – saturated weight may be up to 25kg
- **GRASS HEIGHT ON DESPATCH** Approx. 100mm (4"). The product is mown before despatch to minimise damage to plants. It will not be in flower when it is delivered.

All measurements are approximate and taken when harvested.

- **GROWTH** Turfonline Birds & Bees Meadowmat® is a blend of 5 slow growing grasses, 34 British native wild flowers and 6 naturalised flowers specially selected to be pollinator-friendly and beautiful. Many of the species are perennial and will flower every year if conditions are suitable. The specially selected grasses ensure coverage all year round.

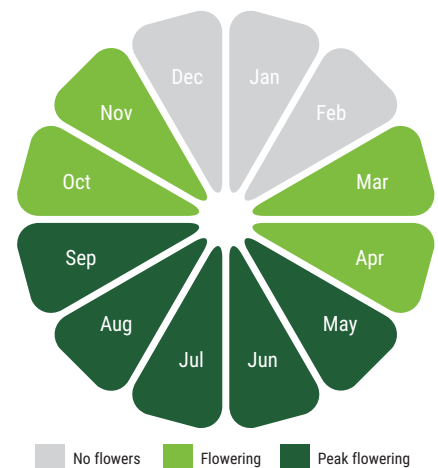

Birds & Bees Meadowmat® will contain mature plants, root fibre and enough soil to maintain the plants during establishment.

- **TYPICAL SEED MIXTURE*** 10% Slow Growing Grasses
90% Native and Naturalised Wildflowers

- **SOIL CLASSIFICATION** Grown on a sandy loam and compost based substrate

MEADOWMAT® FOR BIRDS AND BEES KEEPS THE INTEREST GOING ALL YEAR ROUND WITH SPRING AND SUMMER FLOWERS AND BEAUTIFUL SEEDHEADS IN THE COLDER MONTHS OF THE YEAR.

**The RHS Plants for Pollinators mark is only given to plants that support pollinating insects. Find out more at rhs.org.uk/plantsforpollinators

FEATURES: BIRDS & BEES MEADOWMAT®

■ FEATURES

A mixture of mature plants that allows you to establish dense planting very quickly - more reliable than seeding and less time-consuming than plug planting.

Biodiverse and pollinator-friendly providing a valuable source of nectar and food for many species of insects and birds.

Contains perennial, annual and bi-annual species to ensure a varied display each year.

A mixture of grasses and wildflowers for year-round interest.

Environmentally friendly requiring no fertilisers or pesticides.

Low maintenance – does not require regular mowing.

Prefers a neutral pH but can tolerate acidic or alkaline soils - for best results this product requires installation on a low nutrient soil.

IDEAL FOR:

BIODIVERSE LANDSCAPING SCHEMES

LOW MAINTENANCE AREAS

COMMERCIAL LANDSCAPING

URBAN AREAS AND PARKS

DOMESTIC GARDENS

WHAT'S IN OUR BIRDS & BEES MEADOWMAT®

- Meadow Barley
- Quaking Grass

- Bladder Campion
- Clustered Bellflower
- Columbine
- Common Agrimony
- Common Mallow
- Common Daisy
- Common Poppy
- Common Sorrel
- Common Toadflax
- Cornflower
- Fennel
- Fox and Cubs
- Foxglove
- Grandmother's Garden
- Greater Knapweed
- Harebell
- Maiden Pink
- Meadow Buttercup
- Meadow Cranesbill
- Musk Mallow
- Purple Loosestrife
- Ragged Robin
- Red Campion
- Red Clover
- Sheep's Bit
- Small Scabious
- Tansy
- Teasel
- Viper's Bugloss
- White Campion
- White Clover
- Wild Basil
- Wild Carrot
- Wild Clary
- Wild Marjoram
- Wild Pansy
- Wild Thyme
- Yarrow

 10% Grasses
90% Flowers

 Slow-Growing Grasses

 Native & Naturalised Wildflowers

PLASTIC FREE

**As sown. The actual percentage of each species contained may vary due to environmental factors. Turfonline makes every effort to ensure wildflower products are free from weeds and pests, however due to the natural way in which these products are grown we cannot guarantee they are 100% pest free on delivery. It is unlikely that you will see every species that is listed. The variation of species present has been developed to suit a wide variety of soils and environmental conditions. This will result in a product that will adapt to individual settings which may mean some species are more successful than others. Contains annual, bi-annual and perennial species. If installed after March many species may not flower during the first year.*
