■ GROWTH

Turfonline Garden Lawn Turf is grown for approximately 12 months and like all our grass turf is produced without plastic netting. Our Garden Lawn is designed to deliver great summer and winter greenness. The seed cultivars we use are selected to provide the best quality sward. Jubilee quality but better value offering a dedicated blend that produces a fine, practical and hardwearing lawn.

Garden Lawn Turf will have been treated for weeds and will contain mature grass plants, root fibre and enough soil to maintain the plant during establishment. Each roll should be strong enough to support its own weight when lifted at one end.

- **TYPICAL SEED MIXTURE*** Perennial Ryegrass
Slender Creeping Red Fescue
Strong Creeping Red Fescue
Chewing's Fescue
- **SOIL CLASSIFICATION** Grown on free draining DEFRA classified grade 1 mineral sand or organic loams.
