

# SPECIFICATIONS: SUDS MEADOWMAT®

- **STANDARD SIZE** 0.5m<sup>2</sup> Slabs  
500mm wide (19.6")  
1000mm long (39.3")
- **SOIL THICKNESS** 20mm (0.78")
- **WEIGHT PER M<sup>2</sup>** 20kg – saturated weight may be up to 25kg
- **GRASS HEIGHT ON DESPATCH**  
Approx. 100mm (4"). The product is mown before despatch to minimise damage to plants. It will not be in flower when it is delivered.

*All measurements are approximate and taken when harvested.*

- **GROWTH**  
Turfonline SuDS Meadowmat® is a blend of 5 native grasses and 32 native wildflowers that have been selected for their ability to root into and stabilise poor nutrient soils. These plants are integrated into a reinforced biodegradable coir blanket. Contains perennial species which means they will flower every year if the conditions are suitable. The specially selected grasses ensure year round coverage along with strong rooting to aid soil stability. SuDS Meadowmat® was originally developed for Sustainable Urban Drainage Systems but it is also ideal for any sloped areas, providing stability, low maintenance and colour to otherwise challenging hard to reach areas. SuDS Meadowmat® will contain mature plants, root fibre and enough soil to maintain the plants during establishment.

- **TYPICAL SEED MIXTURE\*** 50% Native Grasses  
50% Native Wildflowers
- **SOIL CLASSIFICATION** Grown on a sandy loam and compost based substrate.

**A LOW MAINTENANCE SOLUTION FOR ALL THOSE HARD TO REACH PLACES. IDEAL FOR SLOPES, BANKS, DAMP SOILS AND THE MARGINS OF PONDS, STREAMS OR 'SUSTAINABLE URBAN DRAINAGE SYSTEMS'.**

# FEATURES: SUDS MEADOWMAT®

## ■ FEATURES

A mixture of mature plants that allows you to establish dense planting very quickly - more reliable than seeding and less time consuming than plug planting.

Biodiverse and pollinator-friendly providing a valuable source of nectar and food for many species of insects and birds.

Contains mainly perennial species to ensure a varied display each year.

Coir blanket offers one of the highest protection grades for a natural non synthetic solution with a lifespan of up to 25 years.

Environmentally-friendly requiring no fertilisers or pesticides.

Low maintenance – does not require regular mowing.

Able to survive both drought and periodic flooding.

Prefers a neutral pH but can tolerate acidic or alkaline soils - for best results this product requires installation on a low nutrient soil or specialist roofing substrate.

## IDEAL FOR:

**BIODIVERSE LANDSCAPING SCHEMES**

**BANKS AND SLOPED AREAS UP TO 65 DEGREES**

**SUDS AND BIOSWALE SYSTEMS**

**AROUND PONDS AND BASINS**

**SOAKAWAY TRENCHES**

**LOW MAINTENANCE AREAS**

**COMMERCIAL LANDSCAPING**

**URBAN AREAS AND PARKS**

**DOMESTIC GARDENS**

## WHAT'S IN OUR SUDS MEADOWMAT®

- Chewing's Fescue
- Rough Stalked Meadowgrass
- Smaller Catstail
- Slender Creeping Red Fescue
- Tufted Hairgrass
- Meadowsweet
- Musk Mallow
- Oxeye Daisy
- Pignut
- Ragged Robin
- Ribwort Plantain
- Rough Hawkbit
- Salad Burnet
- Selfheal
- Tufted Vetch
- Wild Carrot
- Wild Marjoram
- Common Fleabane
- Yarrow
- Yellow Rattle
- Betony
- Birdsfoot Trefoil
- Bladder Campion
- Common Catsear
- Common Daisy
- Common Knapweed
- Common Sorrel
- Common St John's Wort
- Common Toadflax
- Common Vetch
- Cowslip
- Crosswort
- Field Scabious
- Hedge Bedstraw
- Cuckoo Flower
- Meadow Buttercup
- Meadow Cranesbill

**50% Grasses  
50% Flowers**

**Native Grasses**

**Native wildflowers**

*\*As sown. The actual percentage of each species contained may vary due to environmental factors. Turfonline makes every effort to ensure wildflower products are free from weeds and pests, however due to the natural way in which these products are grown we cannot guarantee they are 100% pest free on delivery. It is unlikely that you will see every species that is listed. The variation of species present has been developed to suit a wide variety of soils and environmental conditions. This will result in a product that will adapt to individual settings which may mean some species are more successful than others. Contains annual, bi-annual and perennial species. If installed after March many species may not flower during the first year.*
